heroine anthem zero - original soundtrack

High quality music is a cornerstone for the Heroine Anthem series, and Heroine Anthem Zero's soundtrack does not disappoint. Filled to the brim with beautiful tracks of various styles and lovely instrumentation, the OST brings the world of the game to life. Songs featuring vocals are especially notable for their superb performance and accompaniment. The Sarem Anthem has some very powerful and spirited male vocals, and Ms. Nami shines in The Lost Shepherd and both version of Blood Pupils in the Wind. Kudos to all the maestros involved in this project!

Update 2017-01-17: The OST has been updated with lossless tracks.
